13 South Hollybrook Drive
Toms River, NJ 08753**

Dear Jeff and Laura:

Janet and I would like to take this opportunity to formally thank you for all you've done to make our new home something special.

As I don't have to remind you, although we had a set of plans from our architect, we really built this house as we went. Your patience and your input were greatly appreciated as we went through the construction process. Your attention to detail and the fact that you were on the job site every day of the construction certainly gave us a comfort level and helped to relieve a lot of the tension inherent in the process of constructing a new home.

Being surrounded by relatively new tract homes constructed by crews of subcontractors with little or no supervision and seeing the final product, Janet and I can really appreciate the quality of the home you constructed and validated our decision to select Jeffrey-Angelo Construction to build our custom home.

More importantly, you were able to get us into the house on time and you have been there for us for whatever we needed following our moving in.

Please feel free to use us as a reference for any of your potential future customers.

Cordially,
