Toms River NJ 08753

Dear Jeff,

I thought I would take a moment and thank you wholeheartedly for the fine job you did building my "Brick" house. You are correct when you say no one builds a house like you - "Jeffrey built" from the cases and cases of nails to the cases and cases of caulk.

The doors, walls and floors are level, the pipes flow freely, the facade looks sensational and the view is specatcular. There are no leaks or water seepage even with a 60 mph driving rain.

In other words, the house of my dreams is now a reality and we are enjoying every nook and cranny of it, inside and out, to the max.

We started as builder/client and ended as friends.

Yours truly,

  
ROBERT & ANGELA SALIMBENE
