Dear Jeff:

It has now been 2 ½ years since you built our home. We continue to receive frequent compliments on the workmanship and its overall beauty,

As you know, our first custom home in Holmdel, which was built by another builder, gave us problem after problem. Our "Jeffrey" built home has given us a totally positive experience.

Thank you for consulting with us on the small additions we've made to our home (the fireplace in our bedroom turned out great) and for the immediate response we receive when we call with questions.

Your philosophy of building a house right the first time with care and quality workmanship to avoid any problems in the future was right on.

Best personal regards,

Gary Weindorf
