Subject: Our new home!!!

Dear Jeff,

I would like to take this time to send you a sincere thank you. When our home in Toms River was destroyed by Super Storm Sandy we needed to hire the best home builder. Having lived in Toms River for many years we had the opportunity to see the homes near us that you built. We were always impressed with the quality and then seeing how well your homes held up to the storm it was a given we would ask you to build our new home.

We were completely impressed how you personally were on the job site every day and truly built our home as if it was your own. The attention to detail you put into our home was second to none.

The things you don't see like the amount of lumber used behind the walls, and insulating between all rooms and floors for sound control, the size of the attic rafters for strength, the sealing of all the window and door frames to protect from high winds and always thinking of durability, longevity and avoiding any construction that could cause an issue many years later are just a few things that impressed us.

All of this contributed to the best built house far beyond our expectations.

We are so thrilled with our new home and could not have hired a better home builder.

We strongly recommend your company, Jeffrey-Angelo Const. Co. Inc., to anyone looking for the best built home at the Jersey Shore.

Thanks again!

Vincent J. Fabricatore
